

Custom design

Personalised design for your clipper

We offer you the opportunity to design clippers and their packaging entirely according to your individual requirements.

1. select clipper

Choose the Aesculap machine you would like to receive in your own design.
Available models:

Large animal

Small animal

Trimmer

2. select design

We offer you a wide range of customisation options:
Please note that design customisations must be individually adapted to the respective model
- not every customisation is possible for every clipper.

Choice of colours:

Upper and lower shells available in separate colours

Logo

Own product name and brand logo

Water transfer

Water transfer printing possible on the top shell

Clipping heads/blades

Customised laser engraving of clipping heads and blades (see separate information sheet)

Other possible customisation of:

Packaging /cases with stickers Other (e.g. outer carton stickers)

The following machines can be personalised.

Item no.	Designation	Description	Minimum quantity	Water transfer	Upper shell	Lower shell	Design element	Imprint (e.g. logo)		
	GT804 GT806 GT854	Econom CL cordless clipper	incl. battery incl. 2 batteries incl. battery and blade GTS02/GTS05	<ul style="list-style-type: none"> High cutting speed thanks to high stroke rate High pulling power thanks to high motor power Low heat build-up thanks to high air flow Ergonomic handling thanks to slim housing and balanced weight distribution Filter change without tools Consistent and long-lasting cutting quality thanks to low-wear shearing blades Shearing blades made of abrasion-resistant carbon steel can be reground several times 	300 pieces	On request	x ¹	x ¹		x ²
	GT474 GT475	Econom II clipper	incl. clipper blades GT501/GT502 incl. clipper blades GT503/GT504	<ul style="list-style-type: none"> The Aesculap motor, developed and produced in Germany motor can handle even the thickest coats and allows the machine to glide smoothly through the coat High shearing speed thanks to high stroke rate High pulling power thanks to high motor power Low heat build-up thanks to high air flow Ergonomic handling thanks to slim housing and balanced weight distribution Service-friendly design Filter change without tools – easy carbon change – plug-in circuit board Integrated electronic start control and overload protection Consistent and long-lasting cutting quality thanks to low-wear shearing blades Shearing blades made of abrasion-resistant carbon steel can be reground several times 	300 Pieces	On request	x ¹	x ¹		x ²
